How to Use an ISBN to Add a Book to Your Works Cited List

1. Go into your project
2. Select “Works Cited”
3. Select “Book” at the citation type and “Create Citation.”

4. Click “Continue” to skip the book help screen.

5. Type the ISBN carefully from the back of the book (you can skip the dashes) and click search
6. Make sure the information in the pop-up box matches the information on the title page of your book.

7. Click the title of the book (Soldier Dog) to select it.
8. Click Import
9. Check the Noodletools form to make sure there are no errors that you need to fix:

Here, for example, you would need to delete the number “1” after reading the suggestions.

10. If all of the information is correct, scroll to the bottom, and click submit.
